

## **DEPARTMENT OF SPECIAL EDUCATION**

### **M. Phil. Clinical Psychology**

#### **Overview**

Clinical Psychologists apply knowledge and methods from all substantive fields of bio psychosocial sciences for promotion and prevention, diagnosis, treatment and rehabilitation of mental and physical disorders/ problems where psychological factors play a major role. Clinical Psychologists play an important role for optimizing health care delivery system and there is an urgent need to train more number of professional clinical psychologists.

**M. Phil. Clinical Psychology program** provides a cohesive and meaningful training so that the trainees develop to their fullest potential and shall be able to discharge their responsibilities competently as clinicians, teachers/trainers, researchers and administrators in the field of mental health. The aim of this course is to prepare the trainee to function as a qualified professional Clinical Psychologist in the areas of mental and physical health by offering Diagnostic, Therapeutic, Rehabilitative, Administrative services, and to work towards promoting the well-being and quality-of-life of individuals. The course is developed as a rigorous two-year program with extensive theoretical inputs and widespread clinical experience to acquire the necessary skills in the area of Clinical Psychology.
